DO'S AND DO NOTS

- Use information appropriately! Do not be afraid of accessing information and handling but only access and make copies for a reason and short time

e.g. of data you can handle = Print off camp list and kept for duration off camp then destroyed

e.g. of data you shouldn't handle = Make a list of all children and date of births in a notebook so you know when they are moving up. This would be inappropriate and dangerous we have a secure system OSM that can provide this information in a 'click'

- All data is to be kept safe and secure we use a secure google suite for forms and a google email system for group emails
- If you are not sure about handling data? Ask! GSL can advise on the finer details of the do's and do not.
- Camp / Activity forms from the digital google forms is kept for the duration of Camp / Activity then destroyed
- Camp medical forms kept for 5 years by GSL in locked filing cabinet
- Accident & Incident Forms Kept for 5 years by GSL in locked filing cabinet
- Minibus license checks are stored on google drive securely for 1 year with permission of owner or deleted at the end of the hire.
- All other forms and paperwork to be handed to GSL who will assess the importance and will either securely store or destroy

Trusted personal machines or group laptop at hall (laptops mobiles tablets with passwords)

- If you have compromised Data you must inform the GSL immediately, do not hide or 'sweep' under the carpet. The GDPR has provisions for Data Breaches and how to put things right what it does not allow for is dishonesty and this is a breach of the legislation
- If someone makes a request for personal data to you refer them to the GSL who will formally acknowledge their request.

Group Email's

Email is a very professional tool and should be used as such.

'TO' This is the box for the address of the person who needs the information and may need to act on the email.

'CC' This is Carbon Copy this is when you copy someone into the email, they may make a reply or comment but ultimately if they are CC'd in it is for their information only

'BCC' This Blind Carbon Copy use this to copy people into the email or send a mass email to people and it will not display people's email to others. If you emailed 20 parents, you would put the 20 parents email addresses into the BBC box so they all got the email but could not see other parents email address protecting their personal data.
