

## Social Media and Youth Members

Version 3 1<sup>st</sup> JANUARY 2023

Social Media is a great tool that many people are using every day to stay connected follow interest and keep informed of news and information. The Group also uses social media as a easy and quick way to communicate to many people and share events and activities that we have been taking part in.

Some social media platforms such as Facebook require you to have 'Friends' who can access your information and see what you are posting and commenting on. It is advisable to not have Youth Members under the age of 18 as friends to prevent any misunderstanding of any posts you or they post and share.

We have explorers / young leaders in our Facebook groups and message groups and adult members must ensure that items the post or comment on are appropriate for everyone to see especially those under 18.
